To Whom It May Concern,

I am writing to express my complete support for MHS Mobile Dental Services. I am the Lead Nurse for the Pascagoula-Gautier School District. MHS Mobile Dental started providing dental services to the students in my school district during the 2010-2011 school year.

I believe that having MHS Mobile Dental in our schools has been a great benefit to our students. The dental professionals conduct an examination and cleaning, if they determine that more extensive dental work is needed, they communicate that with the parents and help place the parents in contact with local dentists. Thanks to this more of our children are getting the dental services which they need. It also allows some students to be seen by a dentist for the very first time, because many parents may not see the need to take their children for preventive dental care.

My experience working with MHS Mobile Dental has been completely positive. Mr. Chris Martin and Mr. Mike Murphy have ensured that the MHS Mobile Dental visits in my district's schools have worked smoothly and without any issues.

Based on my district's past experiences with MHS Mobile Dental we allowed them to service our students this year during the Covid 19 pandemic. I personally witnessed the dental team ensure the safety of all students and follow all recommended precautions. We did not have a single concern raised during the dental visits.

I strongly believe that the services provided would benefit students in all school districts. I plan on ensuring that MHS Mobile Dental continues to service that students in my district and would encourage other districts to do the same.

Sincerely,

Christy Tingle, BSN, RN, NCSN  
Lead Nurse  
Pascagoula-Gautier School District
